The \$15,000 of 3 1-2 per cent bonds issued by the town April 1st, 1910 were paid April 1st, 1915 and the town is free from debt.

The decrease in the amount of assets in excess of liabilities February 15, 1916 over the assets in excess of liabilities February 15, 1915 is caused by the cost of reconstructing highways, improvements on old bridges and building the new steel and cement bridge over the Mascoma river.

The total cost of these improvements charged to the extraordinary account is \$12,400.22.

All of which is respectfully submitted.

REPORT OF PROBATION OFFICER

August 1915 to February 1916

Appointed as required by state law under the provisions of Chapter 125, Laws of 1907, Public Statutes of New Hampshire, commonly called the Juvenile Court Act, and working under the supervision and direction of the State Board of Charities and Correction and under the jurisdiction of the Court.

Eight girls and nine boys under seventeen years of age were placed under observation without being brought before the Court for examination.

Five girls and fourteen boys under seventeen years of age were brought before the Court for juvenile delinquency and were investigated according to the Juvenile Court Law.

Five girls and nine boys have been placed upon Probation by the Court.

Six delinquent and neglected children from twelve to sixteen years of age were placed in private families; one in Enfield, one in Lyme, one in Lebanon, one in Brattleboro, one in Bardon and one in Sharon.

Two boys sent to the State Industrial School after a hearing upon petition of their parents.

In connection herewith I have arrested one minor for being drunk and two adults for furnishing liquor to a minor. I have visited pool rooms and moving picture theaters and notified them of the law regarding the age of minors not permitted in such places. I have presented nineteen petitions, served nineteen summons and eight subpoenas; traveled 26 miles to place a homeless and neglected child and made my monthly report to the State Board of Charities and Corrections as required by the Juvenile Court Law. In all these matters I have first consulted the State Board of Charities and Corrections and acted on their advice.

All of which is respectfully submitted.

REPORT OF BOARD OF HEALTH

During the past year there has been the usual small number of contagious diseases in Lebanon. In Lebanon village seven cases of scarlet fever were reported, also two mild cases of infantile paralysis. In West Lebanon there were three cases of diphtheria.

The town has been remarkably free from typhoid fever, only one mild case having been reported. Frequent analyses of the water used in Lebanon have been made and they show our water supply to be one of the best in the state.

To that fact probably can be attributed the freedom from gastro-intestinal diseases which the entire town has enjoyed.

Many complaints have been made during the past year regarding hog pens and sewer connections. During the coming year more stringent rules will be adopted regarding the keeping of hogs in the compact portions of the town. Also whenever it is possible all houses and water closets must be connected with the sewer.

Complaints have been made against the use of the common drinking cup in society halls. The attention of the officers of all societies is called to the law regarding the matter and they should do away with the common cup and if possible substitute a supply of sanitary drinking cups for use in their halls.

Beginning with the school term in September the law regarding vaccination will be rigidly enforced in both High and Grammar Schools. At the present time there are pupils attending school who have not complied with the law. The State Board of Health allows all such pupils until Sept. 1, 1916 to attend to the matter,

The committee wishes to call your attention to the plan for the perpetual care of lots by making a deposit of \$100.00 with the Selectmen, the interest accruing on same being used for the care and repair of your lot perpetually. Many neglected lots and uncollectable bills doubly prove the value of this plan. They especially recommend it to administrators of estates.

Owing to the increased cost of labor, teaming and material the committee recommends a larger appropriation for the care of the cemeteries. Much needed attention should be given School Street Cemetery bordering as it does on one of the main streets of our beautiful town, for which the committee could obtain no money other than the annual appropriation.

In explanation of the change of price in some instances for the care of lots we wish to say that the committee has established a uniform price per size of lot for the care of same each season.
